

# Service overview

Services with **general availability** support full-scale production. Services with **limited availability** include preview (pilots and proof-of-concepts) and /or pre-production (test).

 Services may be provided via dedicated interfaces and/or via the [OpenID Connect Provider](#) as suggested by the second column

Service	Via OIDC	prod	preview	pre- prod	proto pe	comment
Service-level		99,7%	best- effort	98%	unstable	
Certificates / data		prod	prod	pre- prod	pre- prod
