

# Availability and access

The OIDC Provider is currently available in three different pilot configurations corresponding to the columns in the following table. Each of the pilot configurations support various feature combinations as shown. All features will be consolidated into one single configuration after the pilot phase.

✓ = Supported. ✗ = Not supported. ⚠ = In progress / future support

| Features                   | BankID pilot | xID pilot | PSD2 pilot |
|----------------------------|--------------|-----------|------------|
| <b>Identity Providers</b>  |              |           |            |
| BankID                     | ✓            | ✓         | ⚠          |
| xID                        | ✗            | ✓         | ⚠          |
| <b>Protected Resources</b> |              |           |            |
| TINFO                      | ✓            | ✓         | ⚠          |
| PSD2                       | ✗            | ✗         | ⚠          |

Each of the pilot configurations are in turn available in different [environments](#) (preview, pre-prod) as shown in the following table, each with its own base URLs for the [REST API](#) and the [default GUI component](#), respectively.

| Base URL | BankID pilot   | xID pilot  | PSD2 pilot   |
|----------|--|--|--|
| Preview  | API: <a href="https://preview.bankidapis.no/oidc">preview.bankidapis.no/oidc</a>   | API: <a href="https://preview.bankidapis.no/oidc-xid-poc">preview.bankidapis.no/oidc-xid-poc</a> | API: <a href="https://preview.bankidapis.no/oidc-psd2-poc">https://preview.bankidapis.no/oidc-psd2-poc</a> |
|          | GUI: <a href="https://oidc.bankidnorge.no">oidc.bankidnorge.no</a>                 | GUI: <a href="https://xid-poc.bankidnorge.no">xid-poc.bankidnorge.no</a>                         | GUI: <a href="https://psd2-poc.bankidnorge.no">https://psd2-poc.bankidnorge.no</a>                         |
| Pre-prod | API: <a href="https://preprod.bankidapis.no/oidc">preprod.bankidapis.no/oidc</a>   | API: <a href="https://preprod.bankidapis.no/oidc-xid-poc">preprod.bankidapis.no/oidc-xid-poc</a> | API: <a href="https://preprod.bankidapis.no/oidc-psd2-poc">https://preprod.bankidapis.no/oidc-psd2-poc</a> |
|          | GUI: <a href="https://oidc-preprod.bankidnorge.no">oidc-preprod.bankidnorge.no</a> | GUI: <a href="https://xid-poc-preprod.bankidnorge.no">xid-poc-preprod.bankidnorge.no</a>         | GUI: <a href="https://psd2-poc-preprod.bankidnorge.no">https://psd2-poc-preprod.bankidnorge.no</a>         |

## Note

Please contact [developer@bankidnorge.no](mailto:developer@bankidnorge.no) to request access to any of the pilot configurations in any of the environments.

The following information must be supplied by the owner of the OIDC Client that requests access.

- Description on what the OIDC Client is going to be used for
- Contact information for both technical and commercial requests.
- Requested Identity Providers (IDPs).
- Requested Protected Resources
- If BankID is requested, optionally a BankID Merchant certificate to be used, thus replacing the default certificate of the OIDC Service itself.
- Requested scopes and claims (user properties or resources).
- One or more URLs where control will be redirected back to the OIDC client (redirect URLs must be pre-registered for safety reasons).
- A display name for the OIDC Client that will be shown in the header of the (default) OIDC dialogues.
- Optionally an URL for custom GUI handling overriding the default GUI component of the OIDC Provider.

Successful enrollment results in the return of a `client_id` and a `client_secret` that the owner of the OIDC Client must use when calling selected [endpoints of the REST API](#).
