New BankID Release - Kiev

We have released a new version of BankID. It was deployed on november 22nd 2017.

The release comes in two flavours - Merchant and Bank. The documentation is now moved to confluence and we have separated the documentation into Open, Merchant and Bank.

To access merchant and Bank we will have to add you before you get access - this is a one time process. Please note that for most users the open documentation is enough, you will only need merchant access for implementing a merchant site or bank access if you are implementing a bank site.

If you don't have access to the documentation and need it - please add your name here: <https://servicedesk.bankidnorge.no/jira/servicedesk/customer/portal/6> (you will need to create a password first - then add e-mail addresses). Sorry of the inconvenience.

Open

Link to documentation: <https://confluence.bankidnorge.no/confluence/kiev-open>

Bank

Link to documentation: <https://confluence.bankidnorge.no/confluence/kiev-bank>

Link to software: [Kiev Software for Bank](#)

Merchant

Link to documentation: <https://confluence.bankidnorge.no/confluence/kiev-merchant>

Link to software: [Kiev Software for Merchant](#)

Note: If you experience issue viewing the documentation, even if you have gained access to read then please see the following article [here](#).
