- Planned major releases.
- Previous major releases.
- Currently, known issues.

New BankID Release in Production - Copenhagen

We have released a new version of BankID. It was deployed in **Production** on May 29th 2019.

The release comes in two flavors - Merchant and Bank. The documentation is now moved to confluence, and we have separated the documentation into Open, Merchant and Bank.

To access merchant and Bank we will have to add you before you get access - this is a one time process. Please note that for most users the open documentation is enough, you will only need merchant access for implementing a merchant site or bank access if you are implementing a bank site.

If you don't have access to the documentation and need it - please add your name here: <https://servicedesk.bankidnorge.no/jira/servicedesk/customer/portal/6> (you will need to create a password first - then add e-mail addresses). Sorry for the inconvenience.

WORK IN PROGRESS

Open

Link to documentation: <https://confluence.bankidnorge.no/confluence/cphopen>

Bank

Link to documentation: <https://confluence.bankidnorge.no/confluence/cphbank>
