

Environments

Environment	Description
CURRENT	A stable environment with test data, meant for integration and test with the latest release . This environment is equal to PROD in features and functions, but employs test data and has down-scaled capacity.
PROD¹	A stable environment with production data. This is a full-capacity production environment with dual data centres offering a SLA of 99,7%

See the [changelog](#) for changes between the release(s).

1) Preview features

Some features and functions in **PROD** may have preview status. Preview features are fully-functional and work on production data, but comes with no SLA guarantees. Preview features are meant for early evaluation among designated customers but are not yet ready for full-scale commercial use.
