Scopes and Claims (AML)

The AML service supports scopes and claims as shown below

Scopes

The following scopes with corresponding API access are supported. See the section on Access Tokens for further information on the use of these scopes.

Scope	Access
aml_person/basic	API access to Person
aml_person/monitor	Access to the continuous screening service
aml_person /NO_NATIONAL_REGISTRY	API access to response elements in Person API fetched from the Norwegian National Registry source.
aml_person/OFAC	API access AML search through Person API against The Office of Foreign Assets Control (OFAC) sanction list.
aml_organization/basic	API access to Organization
aml_organization/financials.credit	API access to financials.credit expand in Organization API *(limited access)*

> Note that the AML Service currently requires that the standard scope `profile` is also added in the scope list along with the other scopes.

Claims

See separate API documentation on supported claims in the response from the AML service.
