

# Endpoints

The OIDC Provider from BankID supports the following standard endpoints. Please see [availability and access](#) for the API **baseurl** for each of the support configurations and/or environments.

✔ = According to standard. ✖ = Feature restriction. ⚠ = In progress / future support. ⓘ = Custom additions

Endpoint	Support	Description
<a href="#">Openid-configuration (metadata)</a>	✔	According to <a href="#">standard</a>
<a href="#">Jwk (signing keys)</a>	✔	According to <a href="#">standard</a>
<a href="#">Authorize</a>	✔ ✖ ⚠	According to <a href="#">standard</a> with some restrictions and future support for some features
<a href="#">Token</a>	✔ ⚠	According to <a href="#">standard</a> with future support for some features
<a href="#">Introspect</a>	✔ ✖	According to <a href="#">standard</a> with some restrictions
<a href="#">Userinfo</a>	✔ ⓘ	According to <a href="#">standard</a> with some additions

The [Userinfo \(TINFO\)](#) endpoint differs from the rest since it is actually a Protected Endpoint for the Resource Server associated with the [TINFO](#) service. Protected Endpoints for the [PSD2](#) service is beyond the scope of the REST API of the OIDC Provider from BankID.
